SUMMER PROGRAM for VACATIONING STUDENTS Children-High School-College NOW ENROLLING

Parents!

Wouldn't you like to send your child back to school with 100% more confidence, improved co-ordination, and a confident knowledge of Self-Defense?

During the first few weeks of school each September, we have a surge of telephone calls from distraught parents desiring a "crash program for Junior". It seems Junior has just started a new school or changed classes to the extent that he has somehow come into contact with the local "bully" or "the gang", and Junior needs help.

WHAT CAN WE DO TO HELP JUNIOR AND HIS DISTRAUGHT PARENTS?

THIS TO THIS

Bully and gang attacks are especially directed at the weak and fearful. Children who are not physically inclined, who are introverted and shy—these are the children who are the victims of bully or gang attacks.

Judo trained children rarely get into fights, because they are secure in their knowledge of self-defense, and they realize the tremendous advantage they have over the untrained person.

However, when a Judo student is forced to fight, he will fight to win, and due to his superior ability, without needless violence. A Judo trained person has self-confidence and self-respect, and he commands respect from others.

Perhaps your child doesn't have a bully problem or an immediate need for self-defense. Chances are that someday he will. Judo is like an insurance policy—you hope that you never have to collect on it, but it's a great feeling to have in your pocket.

Bushidokan teaches and advocates Judo and Karate as a sport. We know that confidence, courage, physical conditioning, self-defense and many other attributes are by-products of these sports. At Bushidokan we emphasize the sport, and place special emphasis on developing and building self-confidence, especially in our (your) children.
