

# BUSHIDOKAN

Judo  
Jujitsu  
Karate

\*  
Instruction

⊖ **Bushido**  
"the code of the samurai"

## HOW MANY TIMES

have you or your child read Bushidokan's advertisement, and then intended to follow it up and learn more about our program and how you can enroll yourself or a child?

Many of our present students have mentioned that they were always interested in joining a club like Bushidokan and learning the arts of self-defense but they were afraid it was too difficult to learn, too expensive or too involved to become enrolled.

They found later, however, after visiting Bushidokan and going through the no obligation trial lesson, that self-defense is much easier to learn than they had imagined and certainly less expensive. The warm oriental atmosphere at Bushidokan is very inviting, in fact, so inviting that more than ninety per cent of the people taking the trial lesson join a class.

Naturally, everyone would like to become a Judo, Jujitsu or Karate expert, and certainly not everyone can. There are several factors involved that would determine this:

available time, personal ability, cost and desire. We can help you determine these factors through the free trial lesson and interview.

**MEN** . . . Would you like to hold the Brown or Black Belt in Karate or Judo?

**PARENTS** . . . Would you like for your child to have the confidence that goes with earning a Green or Purple Belt in Judo?

**LADIES & GIRLS** . . . Wouldn't you feel much safer knowing, that as a jujitsu expert you could protect yourself in any situation?
